The Integrations page displays the various software platforms that are connecting your ConnectBooster portal together!

Please refer to our other documentation articles for **specific integration** setup instructions.

- **Please contact us for inquiries about creating **NEW** integrations or **CONVERTING** current platforms, as this needs to be done internally*!*

To ensure proper traffic from our systems to your various integrations, you might need a list of our relevant IP addresses. Most often this is **NOT** needed, but it ultimately depends on your specific environment. The "IP ADDRESS LIST" button details out exactly what addresses you may need to white-list on your firewall.

To get the full IP Address List, please contact our team at support@connectbooster.com.
