

ConnectBooster Release 10/25/2023

Last Modified on 10/31/2023 6:00 pm CDT

October 25th 2023

The following is a comprehensive list of all updates released on the date above.

New

- Renamed some buttons on the Setup Checklist to more closely match their intended destination.
- Reformatted the service option settings to display in a more user-friendly way.

Fixed

- Resolved an issue where savings settings would give an error for portals without a PSA integration.
- Resolved an issue where invoice numbers were not present in scheduled payments.
- Resolved an issue where payment histories were duplicated, and transaction histories were not matching between Microsoft Dynamics Business Central and ConnectBooster.
- Resolved an issue where reference numbers were too long for credit card adjustment records in QuickBooks Desktop
- Resolved an issue where logos were not displaying properly.
- Resolved an issue where comments were not displaying properly for Autotask service tickets.
- Resolved an issue where payment records would attempt to sync with Microsoft Dynamics Business Central when the integration was disabled.
- Resolved an issue where ACHQ would not appear after attempting a test connection.
- Resolved an issue where some emails would not display properly.
- Resolved an issue where invoice images could not be found when containing special characters.
- Removed a duplicate 2FA opt-out button that was displaying on the Settings page.
- Resolved an issue where non-US/Canada credit cards could not be added for international customers of US-based partners.
- Removed the "Connect to Autotask" button on the Integrations page.

Deprecations

- None
